Safeguarding is the promotion of activities to support the welfare of children and vulnerable adults. The primary concept in safeguarding is recognising, preventing and minimising the potential for significant harm of children and vulnerable adults. Significant harm is any single or multiple maltreatment or impairment to the health and development of a child or vulnerable adult and is determined by careful assessment. Abuse or mistreatment is a single or repeated act which violates an individual's human and or civil rights. It can occur in any relationship and may result in significant harm or exploitation. Child protection is part of safeguarding and used for responding to concerns where it appears that a child may have been harmed.

CAM Educational Services will seek to keep children safe by:

- Establishing a safe environment where our service users can learn and develop;
- Creating a Code of Conduct for contractors and volunteers;
- Providing effective management for consultants through supervision, support and training;
- Committing to principles of safer recruitment for selection, recruitment and vetting of all staff;
- Sharing information about child protection and good practice with children, parents, and staff;
- Sharing concerns involving parents and children with agencies who need to know appropriately;
- Taking all concerns and allegations seriously, responding appropriately and accepting that this may require a referral to children's services;
- Ensuring that the policy and procedure complies with current legislation, statutory duties and reflects guidance and good practice in safeguarding children, whilst keeping arrangements proportionate and based upon common sense;
- Reviewing the policy and its procedure annually.

The role of the Safeguarding Office is to:
